

Bank of India recognizes the climate risk as one of the eminent risk for social and financial world. To cater the interest of the society, interest of the Bank and all the stakeholders and to align with the vision of the country to achieve Net Zero by 2070, Bank's Board has approved and adopted the ESG Policy.

Before making any binding commitment, the bank strives to improve the disclosures on climate front under which we are disclosing Scope 1 and Scope 2 Emission being computed by the Bank on Quarterly Basis

Serial no	Parameter	Q1 FY 2025	Q2 FY 2025
1	<b>Total Scope 1 emissions (Co2 Emission Equivalent in metric tonne)</b>	<b>440.97</b>	<b>442.30</b>
2	<b>Total Scope 2 emissions (Co2 Emission Equivalent in metric tonne)</b>	<b>21723.67</b>	<b>23289.94</b>
3	<b>Total Scope 1 and 2 Emission (Metric Tonne)</b>	<b>22164.64</b>	<b>23732.24</b>
4	<b>Total Number of Employee as on the last date of respective quarter</b>	<b>50555</b>	<b>50508</b>
5	<b>Scope 1 and Scope 2 emission per employee during the quarter (Metric Ton/ Employee)</b>	<b>0.44</b>	<b>0.46</b>

- For Scope I emission, the fuel bill amount is being used and converted to fuel equivalent of litre, which is then converted into CO2 emission equivalent.
- For computation of Scope II emission, the electricity bill amount is being converted into units of electricity by using the average rate of electricity in the country. The Conversion factors available in public domain is used to convert electricity consumed into CO2 Emission.
